TOWABLE
EASY TRANSPORT

KEY FEATURES

- ✓ Air operation shortens application time and avoids the safety hazard of a pressurized-tank type.
- ✓ Hose length customizable (standard 50 ft reel, suitable for midsize jet).
- ✓ Utilizes diaphragm air pump to keep viscosity, protect against shear and hold over time.

PERFORMANCE & USE

Typically uses about 20–35 gallons to cover:

- Challenger 600
 - Challenger 300
 - Challenger 850
 - Falcon 900
 - Falcon 2000
 - Falcon 7X
 - Global 6000
- within 5–10 minutes.
